

RTS Events – Keeping Safe

Although the Government has eased Covid restrictions, the Society is conscious that some Event Attendees will still have concerns about the possibility of catching the Covid-19 virus even with double vaccinations or previous infection. We will be taking all necessary measures to ensure your safety whilst you are in attendance and would appreciate if you would take a few moments to consider the below.

Our priority is to keep all of us, our families, and colleagues safe. We will work with the venue and providers to keep high-touch surfaces clean, we encourage our volunteers and contractors to undertake regular flow testing and we will be passing this safety guidance to all attendees. We do suggest anyone attending also considers organising regular flow tests for their own protection. For your ease, here is a link to order tests, [Order coronavirus \(COVID-19\) rapid lateral flow tests - GOV.UK \(www.gov.uk\)](https://www.gov.uk/order-coronavirus-rapid-lateral-flow-tests).

We encourage you to continue frequent handwashing and/or hand sanitizing while with us. Face coverings are not mandatory, but should you wish to wear your face cover, please do. Should you or anyone you live with feel unwell in any way, we ask you to reconsider your attendance. In the case that symptoms develop while you are with us or after 48 hours of attending, please do get in touch, so we can ensure others are safe and informed.

As an attendee, you acknowledge that the Society, the venues and all suppliers to the convention, will be following the Government guidelines and advice and do what is required to ensure your safety preventing any unnecessary spread of the virus. By attending, you also agree to follow any guidelines set out by the Society and are willingly in attendance at our Event.

It's so nice to welcome you back!
